Greetings

I am a proponent of the resort. I refer to the introductory pages of the report, page iii. I believe that concentrating the building of homes in one area rather than up and down the Bitterroot Valley is the best way to contain growth. I believe this will be an attractive addition to our communities. It certainly has to be better than the ranchettes that are scattered up and down the Valley.

This is a wonderful opportunity for Missoula and I only hope that the resort will be developed and that those who oppose it will be defeated and shown that their money cannot stop good things for the City and the State.

The economic addition will be excellent. See pages i, ii, iii. There is no question that the probability of manufacturing jobs is limited because of our location. This will make us a more lively community.

Organized development is preferable and I believe that this resort will also be a physically attractive addition to our community. It is no different than Snowbowl or all the golf courses we have added.
